OBJECTIVE

Computer Science undergraduate at FAST-NUCES skilled in full-stack development, Python backend services, and machine learning workflows. Seeking a software engineering role to leverage skills in building scalable web applications, automating pipelines, and solving complex problems.

EDUCATION

FAST - National University of Computer and Emerging Sciences (NUCES)
Karachi, Pakistan
Bachelor of Science in Computer Science (BSCS)
2024 - 2028

Army Public School & College (APS&C)
Petaro, Pakistan
Higher Secondary Certificate (HSC) - Pre-Engineering / ICS
2022 - 2024

Army Public School & College (APS&C)
Petaro, Pakistan
Secondary School Certificate (SSC) - Science
Completed: 2022

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, TypeScript, SQL, HTML5/CSS3.
Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, Django, Pandas, NumPy, Scikit-Learn.
Databases & DevOps: PostgreSQL, MongoDB, MySQL, Docker, Git/GitHub, Linux/Bash, AWS (EC2/S3).
Tools: Postman, VS Code, Vite, JIRA.

EXPERIENCE

Folio3 Software - Karachi, Pakistan | Software Engineering Intern | June 2025 - August 2025
- Built RESTful APIs using FastAPI and Node.js for internal pipelines, reducing endpoint latency by 22%.
- Developed responsive React.js dashboards with optimized state management and rendering performance.
- Containerized multi-service applications with Docker and automated testing via GitHub Actions CI/CD.

Independent Freelance Developer - Upwork | Full-Stack & Python Developer | September 2024 - Present
- Delivered 8+ full-stack web applications and data automation scripts with a 100% completion rate.
- Integrated third-party APIs, JWT authentication, and payment gateways into production platforms.
- Optimized SQL database schemas and refactored backend logic to enhance transaction speed.

PROJECTS

SnapInsta - Social Networking Platform | Tech: React.js, Node.js, Express.js, MongoDB, JWT
- Built a full-stack media platform featuring image feeds, dynamic commenting, and like interactions.
- Implemented secure token-based user authentication and integrated CDN pipelines for media uploads.

Phishing Website Tracker & Detector | Tech: Python, Scikit-Learn, Pandas, FastAPI
- Developed a URL threat classifier achieving 93%+ accuracy using Random Forest and lexical feature analysis.
- Deployed the inference model as a lightweight REST API for automated URL verification.

Hotel Management System | Tech: C++, OOP, File Handling / MySQL
- Engineered a desktop system managing reservations, room inventory, customer check-ins, and billing.
- Applied OOP principles to ensure data consistency and eliminate duplicate booking errors.

LEADERSHIP & SOCIETIES

- Executive Director - Event Management, PromCom Society (FAST-NUCES): Managed logistics and operational planning for university events hosting 1,000+ attendees.
- Head of Competitions, DECS / ACM Student Chapter (FAST-NUCES): Directed competitive coding tracks, problem setting, and judging operations during DevDay.
